- N1 Number of required CRFs and data entered optional CRFs, exclude central read forms. N1 = N2 + N3 + N4.
- N2 Among N1, number of CRFs current submitted.
- N3 Among N1, number of CRFs currently not submitted, but within the submission window.
- N4 Among N1, number of CRFs currently not submitted, and out of the submission window.
- N5 Among N1, number of CRFs first submitted.
- N6 Among N1, number of CRFs not first submitted, but within the submission window.
- N7 Among N1, number of CRFs first submitted within the submission window.
- P7 $N7 / (N1 - N6) \times 100$.
- P10 Number of CRFs first submitted within 60 days / $(N1 - N6) \times 100$.
- N11 Number of DCRs associated with CRFs included in N1.
- N12 Number of Data corrections after first submission on CRFs included in N1.
- P12 $N12 / \text{Number of data items on CRFs included in N1}$.
- N14 Number of confirmed warning rule violations on CRFs included in N1.
- N15 Number of confirmed protocol violations on CRFs included in N1.

Lessons Learned from ARCADIA and MOST Study Closure

Best ways to help your sites beyond subject enrollment

Jocelyn Craven

Outstanding Data – Amount

- Avoid as much as possible outstanding data
- Where to find outstanding data for sites:
 - Email sent on the 1st and 15th of the month giving the number of outstanding data.
 - WebDCU ‘Subject CRF List’
 - WebDCU ‘Rule Violation’
 - WebDCU ‘DCR Query’
 - WebDCU ‘Alerts’

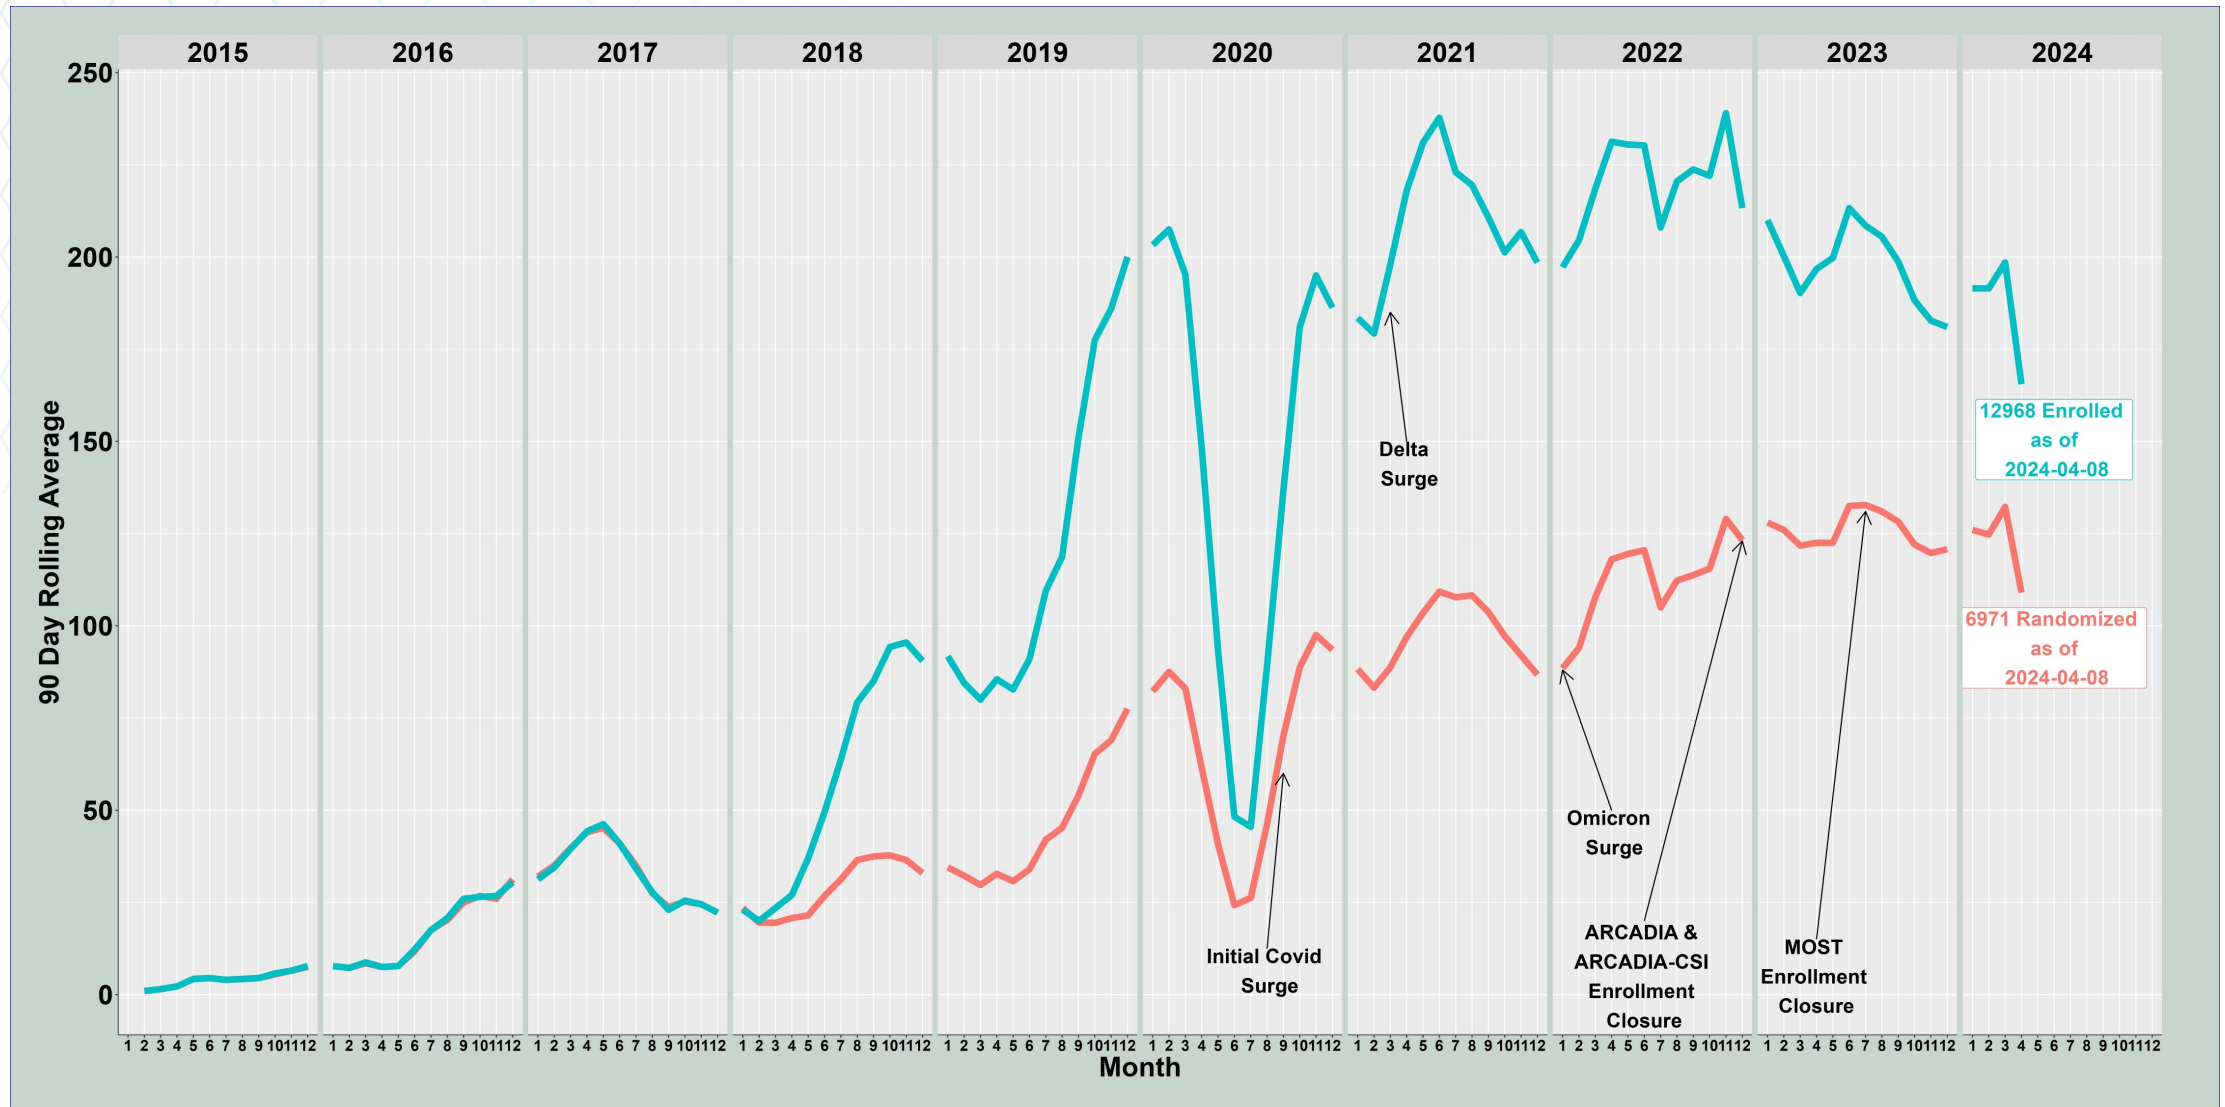

Outstanding Data – Asking Question

- Partnering with the NDMC Data Managers and Site Monitoring Managers with data queries for performance sites.
 - Typically, the NDMC Data Managers or Site Monitoring Managers will CC the RCC Manager on data emails only when they need additional assistance.
 - Reach out with questions about data entry via email
 - Suggest performance sites to request a video call with the NDMC DM or SMM to walk through a specific question related to using WebDCU.

Network Enrollment and Accolades
