# SLEEP SMART NEWSLETTER

Sleep for Stroke Management and Recovery Trial

Current Randomizations! Thanks to all sites for your hard work!

Please visit our Sleep SMART website to find helpful study-related materials: https://www.nihstrokenet.org/sleep-smart-trial/home

Reminders

- Look out for an email in November from Kayla about signing up for the January FusionHealth Workshop.
- There are separate FusionHealth MOPS from the Sleep SMART MOP. Please use these to help you with KOEO, setting up the Nox T3, & completing the CPAP run in night.
- You should **not enter** PHI when you configure the Nox T3 in KOEO. You should be entering First Name: Sleep SMART, Last Name: [Subject ID], DOB: 1/1/1900, Identification: [Subject ID].
- Those who decline informed consent should be logged into WebDCU under Study Progress tab > Screen Failure Report.
- Please review the Data Collection Guidelines for Sleep SMART located in project documents in WebDCU for how to complete the CRFs. This provides great information on how to complete the CRFs and should be the first place you look when you are not sure how to complete a form.
- Please report AEs. If you need guidance, please see pg 59 of the sleep SMART MOP.
- Have webinar ideas or topics you want to see covered? Let us know!

Next Webinar

November 18, 1-2 PM ET. Calendar Invites will be sent soon

FusionHealth T3 reading times ET

Mon-Fri: 5 am, 11 am, 5 pm, 10 pm
Sat/Sun: 10 am, 4-6 pm

Continuing Review

It's that time of the year again. An email has been sent to all sites with CIRB approval from Joelle.

- All sites will need to complete the 2019 CR Form and return before **11/11**
- A StrokeNet fCOI will need to be completed and returned by the site PI and any team member who has a positive disclosure before **11/11**

Sleep SMART Coordinator of the month

Congratulations to Vicki Manoukian!
Cedars Sinai, Los Angeles CA

Vicki was chosen as the coordinator of the month for her help in troubleshooting T3 issues at her site and providing information about RT time estimates to help other sites. She wore two Nox T3's for hours while at work to investigate the reason for oximetry data collection failure. Through this, she discovered that both her T3 's functioned properly and it was a subject specific issue. The subject was moving too much and the oximeter was not able to determine saturation value or pulse rate, causing the study to be invalid. The oximeter is more likely to be invalid due to movement artifact if it records a long period while the subject is awake. This often relates to initiation of the study too early. The Nox T3 should be started just prior to anticipated sleep.

If you are a site that has a coordinator
that you think should be featured, let us know!

Eligibility questions: 9am to 8pm ET: sleepsmart@umich.edu
Fusionhealth (Nox T3, KOEO, aCPAP, Masks): 9am to 5pm ET: 1-888-505-0280 ext 4006
WebDCU emergency randomization hotline: 1-866-450-2016
Project Managers: Kayla Novitski kcgossel@med.umich.edu and Joelle Sickler sicklejb@ucmail.uc.edu
WebDCU help: Faria Khattak khattak@musc.edu and Jocelyn Anderson anderjoc@musc.edu
